Experience Marketing Masterclass

Create Experience-Driven Marketing Programmes to Boost Sales and Increase Brand Awareness

Why This Masterclass

The marketing landscape is changing, and fast. As marketers target people with pitches for their products via every conceivable vehicle - from TV sets to mobile phones, corporate calls to formal meetings, consumers and clients are increasingly tuning out the "noise". It's difficult these days to even watch a TV programme without wondering whether it exists solely to showcase a given product or service.

Experiential Marketing uses brand relevant experiences to appeal to both the rational and emotional buying triggers of the intended audience. According to Marketing Effect Magazine, 81% of surveyed senior executives in the U.S., U.K., Europe and Hong Kong agree that **Experiential Marketing** is the next big battleground for the marketing world!

Attend this two-day interactive masterclass which is equipped with the right tools and tips and learn how to create experience-driven marketing programmes to boost sales and increase brand awareness!

Experience Marketing is changing the marketing world. Marketers worldwide spend **more than \$150 billion on experiential marketing** in 2005 and according to a study by HPI Research Group, 68% of surveyed marketing executives spent more on experiential marketing in 2005 than in 2004 and more than half of those executives expect to increase spending in 2006.

The companies that provide the great experiences will be the companies that capture the market share. The deeper and more intricate experiences a company can provide, the more relevant connections it will forge with its clients and customers. By designing great marketing programmes that satisfy prospective and existing customers' senses, a company, or its personnel will experience marketing bliss and customers will reward them with their almighty money!
